## **Raltron Announces New 699MHz-2690MHz Multiband Antenna for IoT applications**

Raltron Electronics, Inc., Miami, FL is introducing a new multiband Antenna PN RST-MB-15388-22-G-1 covering the frequency range from 699MHz to 2690MHz and suitable for IoT and cellular network applications.

The new multiband antenna has dimensions of 196mm x 38mm x 13.8mm, has a gain of 3dBi, is designed for vertical polarization and can handle a power level of up to 50 W. Available in black color, the antenna has a swivel type SMA male connector suitable for versatile external use.

The new Raltron multiband antenna has been primarily designed for “sub 1GHz applications” such as ZigBee, LoRa, Sigfox, etc. but could also be efficiently used for other bands: GPS, WiFi/Bluetooth, 4G/LTE, etc.

Pricing for the new Raltron multiband 699MHz-2690MHz antenna is \$8.00 USD for 1k pieces with delivery at 8 weeks aro. For samples, product specifications, quotations for other quantities or copies of the company’s full line catalog, contact your authorized Raltron stocking Distributor or Representative or:
