Digi-Key Bolsters Frequency Management and Antenna Offering with Addition of Raltron

MIAMI – March 5, 2020 – Raltron, a global leader in high performance frequency management components and antenna products, is pleased to announce Digi-Key as a global supply partner. Raltron is dedicated to improving the customer experience by streamlining the design and purchasing processes. The addition of Digi-Key as an authorized stocking distributor enhances Raltron’s global footprint and reduces lead times.

“Digi-Key is a premier distributor organization that provides superior capabilities that shorten the design cycle and simplify the supply chain process for our customers,” said Ross Weiss, VP of Sales at Raltron. “Adding Digi-Key is part of our long-term strategy to grow not only in North America, but globally as well.”

Digi-Key will support Raltron’s frequency components and antenna product offerings. From simple tuning fork crystals to high stability oven controlled crystal oscillators, Raltron’s commitment to research and development enables the continued development of application-specific crystal devices, LTCC filters, oscillators, SAW devices, wireless antennas and more.

About Raltron

Founded in 1983, Raltron is a privately held ISO-9001:2015 certified company that offers the most comprehensive line of frequency management devices in the industry. Raltron develops, manufactures and sells products worldwide including crystal resonators, clock oscillators, VCXOs, TCXOs, OCXOs, VCO’s, SAW and LTCC filters, ceramic resonators and a variety of IoT compatible antennas, RF cable assemblies and RF connectors. Raltron is dedicated to continuous growth through investing in its traditional markets like telecom infrastructure, consumer, industrial, medical, as well as new markets including IoT, M2M and smart metering. Its products are marketed through a worldwide network of independently owned representatives and franchised distributors.
